SENIOR UI & UX DESIGNER

PROFILE INFO

I am a Senior UI/UX Designer with over 7 years of experience in creating user-centered, intuitive digital experiences. I specialize in transforming complex business needs into simple, functional, and aesthetically pleasing designs. Skilled in tools like Figma, Adobe Creative Cloud, and Sketch, I also bring hands-on front-end development experience, ensuring seamless collaboration with developers. My approach to design is comprehensive, covering research, ideation, prototyping, and user testing, all while focusing on delivering value to businesses. I'm passionate about improving user interactions and driving engagement through well-crafted digital solutions.

WORK EXPERIENCE

Senior UI/UX Designer

HFCL July 2022 – Present

- Led the design of end-to-end user experiences for various web and mobile applications.
- Collaborated closely with product teams to align business objectives with user needs, creating high-fidelity wireframes, prototypes, and mockups.
- Implemented and maintained design systems to ensure consistency across multiple platforms.

Key Accomplishments:

- Successfully redesigned a corporate product portal, improving usability by 30%.
- Led the design of an internal app, which reduced onboarding time by 20%.

UI/UX Design Engineer

M Result January 2021 – June 2022

- Worked closely with cross-functional teams to design responsive dashboards for healthcare management systems.
- Created intuitive information architecture and visual design that catered to both desktop and mobile platforms.
- Conducted user research and journey mapping to better understand pain points and needs.

Key Accomplishments:

- Successfully redesigned a corporate product portal, improving usability by 30%.
- Led the design of an internal app, which reduced onboarding time by 20%.

Achievements

● Wipro Pvt Ltd Web Development & Animation The Alpha Squad 2020

I was selected to join Wipro's prestigious Alpha Squad, where I contributed to animation and web development projects. As a newcomer, I earned the "Alpha Squad" award for Best Performance in Animation and Web Development, recognizing my dedication and skill in delivering exceptional results.

● Dell Designathon 2019

First Runner-Up in Product Design & Video Editing

I contributed to the 2019 edition of the Dell Designathon, a global competition where design and innovation intersect. Collaborating with Dell and design schools, we produced an online video that aligned with the event's theme of 'Invention,' celebrating fresh ideas for technological advancements.

● Arenakala Utsav 2018

I received recognition in "UI/UX Design" at Arenakalautsav for my creative design and development work, showcasing my ability to blend innovation and functionality in the design space.
